I will present 3 laboratory studies that attempt to tease apart the elements of visual co-presence that support achieving a joint focus of attention, and consider how joint attention shapes collaboration and conversation. I really liked that the story took off in the first few pages, without the LONG and drawn out intro of our couple. Edit Did You Know. Palliative care is indicated for patients with a prognosis of less than 12 months of life even given aggressive treatment. The batting order is set before the game begins, and may not be altered except for substitutions.
